

Appvion's Environmental Efforts Thermal Papers

Environmental management is a key component to Appvion. Operational Excellence. We commit to implementing company-wide performance-driven environmental and chemical management systems which will strive to achieve world-class standards. We will integrate environmental management into our business decisions, will seek to continuously improve our environmental management, and will strive to reduce adverse environmental impacts throughout the Company through active management and annual reviews of our progress. As part of our environmental management system, we will comply with all applicable environmental legislation and regulation and with any other requirements we adopt.

ISO 14001 Certification

Demonstrating Appvion's disciplined approach to setting and achieving environmental objectives and targets, Appvion's manufacturing locations have received ISO 14001 Certification.

FSC® Certification

Appvion's internal processes and procedures that track Forestry Stewardship Council™ (FSC) certified raw materials have earned the company FSC Chain-of-Custody Certification (FSC-C003368). As a paper manufacturer that doesn't own forestland, we feel that certification through the FSC is one way we can help improve forestry practices, significantly reduce long-term impact on the environment and establish responsible social practices. Appvion's FSC-certified offering helps our customers meet the market demand for environmentally responsible products.

No BPA

Appvion does not use BPA (bisphenol A) in the manufacturing of direct thermal products.

Six Sigma and Lean Manufacturing

Appvion uses a combination of Six Sigma methodology and Lean Manufacturing practices to continually reduce its impact on the environment.

More Information

For more information on Appvion's environmental efforts, contact our Technical Services department at 1-800-922-1723.
